No. of Site Licences and Registrations Transferred from 2005 to 2015

NOTES: Since the December 2010 introduction of the restriction on Mooring Site Licence transfers to allow only 'sale of licensed vessel' transfers, the number of transfers has actually increased from an average number of transfers in prior years (2005 to 2010) of 85 transfers per annum to 132 transfers per annum. The transfer numbers may have been influenced by greater activity in Mangles Bay since 2010. **The transfer by 'sale of licensed vessel only' policy has had no effect on the numbers of transfers.**
